

Favorite Video Festival

Hello, Human Observation Society is now accepting submissions of your favorite video from your preferred online video site (youtube.com, veemo.com, myspace video, et cetera) to the Favorite Video Festival. The aim of this festival is to create a time capsule that will be limited to a five year run (ending in 2015). Each year will explore a different theme relating to how people are expressing themselves though the medium of the uploaded personal video and of course the sharing of these videos.

The festival will be exhibited both online (favoritevideofestival.org) and screenings will be organized for various exhibition spaces and movie houses.

Theme - This year's theme will revolve around how people show/express their love and upload it for all to see.
